

Briess CBW® 30-pound Mini-Pails

Endless brewing possibilities

Over the last four decades, Briess has provided brewers and homebrewers with Concentrated Brewers Worts (CBW®) for convenient, easy-to-use solutions in their creative brewing process. To provide our customers with more possibilities, we are exploring new packaging sizes with endless opportunities. This includes the latest, limited-time-offer, Briess CBW® 30-pound Mini-Pails.

Benefits of Mini-Pails

- **30 pounds** of malt extracts gives you the option to use as much extract as you need when you need it.
 - Use the amount you want for creative brewing, small gravity adjustments, minor flavor or color adjustments, and yeast propagation.
- **Reusable** – Once you’ve emptied your Mini-Pail, reuse it for fermenting, sanitizing, equipment storage, grain storage or any other purpose you can think of.
- **Sturdy** handle for carrying and pouring – Suitable for use with liquids up to 190°F as well as in freezer applications.
- **Food-grade** – Durable 100% prime virgin high-density polyethylene (HDPE) construction complies with FDA food-grade regulations.
- **Recyclable** as a #5 plastic.

Pour Spout Dispensing Tips

The CBW® Mini-Pails come with an optional pour spout.

Pouring can be improved by adding a ventilation hole.

To add a ventilation hole:

1. First, mark a spot adjacent to the pour spout.
2. Then, carefully use a utility knife to puncture an X in the lid.
3. Once the ventilation hole has been added, you are ready to pour.

Note that when adding a ventilation hole, if product is not fully used, an air-tight seal must be added to the hole to avoid contamination.

Available Varieties

You'll have no shortage of extract options to brew with. Ten varieties of liquid malt extract are available in the Mini-Pail:

- | | |
|-------------------------|-------|
| • CBW® Bavarian Wheat | #7307 |
| • CBW® Golden Light | #7308 |
| • CBW® Goldpils® Vienna | #7309 |
| • CBW® Munich | #7310 |
| • CBW® Pale Ale | #7311 |
| • CBW® Pilsen Light | #7312 |
| • CBW® Porter | #7313 |
| • CBW® Rye | #7314 |
| • CBW® Sparking Amber | #7315 |
| • CBW® Traditional Dark | #7317 |

Alternative Packaging Options

Whether you need small quantities for yeast propagation or large amounts for extract brewing, Briess malt extracts and syrups come packaged in a variety of sizes to fit your needs:

- 3.3-pound canister
- 5-gallon pail
- 15-gallon carboy
- 55-gallon drum
- 3,000-pound liquid tote

Limited Time Offer

Currently, Briess is evaluating the viability of this packaging option and will offer the CBW® Mini-Pails for a limited time. In an effort to provide our customers with the most convenient, user-friendly, efficient packaging options, our limited run of the Mini-Pail will end soon, making way for a much better alternative to enhance the brewing experience.
