The glassy endosperm creates the desirable non-fermentable components giving true Caramel Malt the ability to contribute body (mouthfeel), foam, foam retention, and extended beer stability, while contributing color and unique caramel flavor.
- Caramel Malt 80L is a roasted caramel malt that imparts red to deep red color.
- Use 3-15% in Amber and Red beers.
- Use 10-15% in Bock beers.
- Use 7-15% in Dark beers.
- Use 10-15% in Porter and Stout.
- Produced from AMBA/BMBRI recommended 6-Row Malting Barley varieties.
